* Based on 45% highway driving, 55% city driving, 15000 annual miles and the [price of fuel](#) used by the vehicle. You may [customize](#) these values to reflect the price of fuel in your area and your own driving patterns.

GHG- [Greenhouse gas emissions](#) expressed in CO₂ equivalents. Estimates include the full fuel cycle and exclude vehicle manufacture. (U.S. Department of Energy, GREET Model, Argonne National Laboratory)
