Plant is an accident waiting to happen

I don't know if this ethanol plant violates any state or federal law. It does violate moral laws.

These chemicals will be transported by trains and trucks. It's an accident waiting to happen. The chemicals will be taken through Cumberland Valley Business Park where hundreds of people work and next to Letterkenny Army Depot. Why put all these people at risk?

Penn-Mar Ethanol wants to build its ethanol plant in Greene Township because it's cheaper. Sounds like its main concern is on profits, not on safety.

Why did Penn-Mar Ethanol spend millions of dollars to buy land at the Cumberland Valley Business Park before the plant was approved? They must have known it will be approved.

What's with the Letterkenny Industrial Development Authority board voting to sell land for a chemical plant? They are always talking about being a good neighbor. Good neighbors don't put people in fear of their life.

Greene Township just voted for a burning ban on leaves because the smoke pollutes the air. So I am sure the supervisors will vote against this plant.

The first responsibility of elected officials is to protect their citizens from any foreseeable and potential danger.

This plant falls into that category. I wonder if the DEP was working with Three Mile Island.

I am worried about the 2.5 miles around the plant. Is this an evacuation zone or a may-God-have-mercy-on-your-soul zone?

This plant should be built away from populated areas, our families and our children should not be put in harm's way.

Our fact-finding team came back from the Badger State ethanol plant. They found out in less than a day that ethanol is safe, and a plant will benefit our community.

They are good. The CIA could use these guys.

Hey, I know this is a done deal. I know the plant will be built. Good luck to us. ...
